

2302031030164 Assignment 1

Here are the steps to create a git repository named as my enrollment num (2302031030164), And add two folders names assignriment1 and assignment2.

Step 1 - Open your terminal or command prompt.

Step 2 - Navigate to the directory where you want to create the repository using the co command.

Step 3 – Run the command git init” 2302031030164” to create a new git repository named “2302031030164”

Step 4 – Navigate into the newly created repository using cd 2302031030164

Step 5 – Run mkdir assignment1 to create the assignment1 folder

Step 6 – Run mkdir assignment2 to create the assignment2 folder

Step 7 – Now your repository should have two folder names assignments and agent

Step 8 - You can add files to these folders and commit your changes using git commands like git add and git commit on initial commit

That's it you are creates a git repository named 2302031030164 with two folders named Assignment_1 and Assignment_2
